

Payal Rewatkar

Web Developer

Ghansoli, Navi Mumbai | 9730830728 | plrewatkar123@gmail.com | 3 Years 7 Months Experience

PROFESSIONAL SUMMARY

Skilled Web Developer with expertise in front-end (HTML, CSS, JavaScript, Bootstrap) and back-end (PHP, MySQL, SQL) technologies, focused on building responsive, user-friendly websites and web applications. Highly motivated and detail-oriented professional with strong expertise in web development and software integration, proficient in C#, HTML, CSS, Bootstrap, PHP, SQL, MySQL, XAMPP, and web hosting platforms such as cPanel and GoDaddy. Skilled in using Canva for creating logos, brochures, and templates. Seeking to build a career as a Software Developer with a forward-thinking, technology-driven organization.

PROFESSIONAL EXPERIENCE

Web Developer

Apr 2024 – Present

Shakti Enterprise

- Troubleshoot and resolved client-side issues in web documents and applications using HTML, CSS, JavaScript, and Bootstrap.
- Identified and fixed errors in web pages, improving functionality and ensuring cross-browser compatibility.
- Optimized the user interface for better performance and usability, leveraging Bootstrap for responsive design.
- Collaborated with cross-functional teams to implement solutions meeting both technical requirements and user needs.
- Conducted quality assurance checks, generated QA reports, and resolved linguistic/technical issues.

Web Developer

Jan 2023 – Mar 2024

Technoriya ERP Solutions

- Created responsive websites for clients, ensuring seamless functionality across devices.
- Managed databases and server configurations on cPanel and GoDaddy, and used XAMPP for local development.
- Designed company profiles, banners, and advertisements using Canva to support marketing efforts.
- Built responsive websites using HTML5, CSS3, Bootstrap, PHP, MySQL, and JavaScript.
- Collaborated with UI/UX designers to implement clean, user-friendly designs adhering to accessibility and mobile-first best practices.
- Enhanced site performance through optimization techniques.

PROJECTS

Wedding Hall Booking System

Developed an easy-to-use website for customers to view and book function halls for events such as weddings and parties.

- **Frontend:** Built a simple, responsive design using HTML, CSS, and Bootstrap for easy navigation, with JavaScript for real-time booking, availability checks, and interactive forms.
- **Backend:** Used PHP to manage bookings, process forms, and handle customer data.
- **Database:** Designed a MySQL database to store hall details, bookings, and customer information.
- **Outcome:** Enabled customers to check availability and book online directly, increasing user engagement and streamlining operations.

EDUCATION

Master of Computer Applications (73.27%)
