PROFESSIONAL SUMMARY

Web Developer with 3+ years of experience building responsive, high-performing websites and web applications using HTML5, CSS3, JavaScript, Bootstrap, PHP and MySQL. Strong command of UI/UX design principles and Figma, with hands-on expertise in cross-browser compatibility, website performance optimization and database management. Experienced in deploying and managing websites on cPanel and GoDaddy. Focused on turning design ideas into fast, user-friendly, mobile-first web experiences that drive engagement.

PROFESSIONAL EXPERIENCE

Web Developer *Apr 2024 – Sep 2026*

Shakti Enterprise

- Debugged and fixed front-end issues in web pages and applications using HTML, CSS, JavaScript and Bootstrap, improving functionality and cross-browser compatibility.
- Optimized the user interface for better performance and usability, using Bootstrap for responsive layouts across devices.
- Worked with cross-functional teams to turn technical requirements and user needs into working features.
- Performed quality assurance checks on web pages, prepared QA reports and resolved issues before release.

Web Developer *Jan 2023 – Mar 2024*

Technoriya ERP Solutions

- Built responsive client websites using HTML5, CSS3, Bootstrap, JavaScript, PHP and MySQL, working seamlessly across devices.
- Managed databases and server configuration on cPanel and GoDaddy; used XAMPP for local development and testing.
- Collaborated with UI/UX designers to implement clean designs following accessibility and mobile-first practices.
- Improved website speed and performance through optimization techniques.

PROJECTS

Wedding Hall Booking System

Developed a website where customers can view function halls, check availability in real time and book online for weddings and parties.

- **Frontend:** Responsive design using HTML, CSS and Bootstrap, with JavaScript for real-time booking, availability checks and interactive forms.
- **Backend:** PHP to manage bookings, process forms and handle customer data.
- **Database:** MySQL database storing hall details, bookings and customer information.
- **Outcome:** Reduced manual booking work and improved user engagement by moving the whole booking process online.

EDUCATION

Master of Computer Applications (73.27%) *2021 – 2023*

Bachelor of Science (IT) (72.14%) *2018 – 2021*
